The downloading, opening, or viewing of electronic versions of the Documents or visual contact with any printed form thereof shall constitute conclusive evidence of User's acceptance of these restrictions. Other project team members may, under terms of their separate agreements, hold similar copyrights and enforce similar use restrictions on their documents, which the User may access through the Client Login Area.

User acknowledges that all information regarding the Project should be held in the strictest of confidence. No information, documents, and data in the Client Login Area may be disclosed to others outside of the project team without the expressed authorization of IMS or the Owner.

The User recognizes that changes or modifications to IMS's documents or the documents of other project team members by anyone other than the creators of such documents may result in adverse consequences, which IMS can neither predict nor control.
